# GURPS Tactical Shooting

As Real as a Fistful of Steel!

*GURPS Tactical Shooting* does for shooting what *GURPS Martial Arts* brings to real hand-to-hand combat – it has all the information gamers need to bring *realistic* firearm combat to the gaming table.

With stances, tactics, military preferences, and a lot of “busted” gun myths, this book has everything a GM needs to give a modern-day campaign an extra level of depth. Players creating weapon-specialist characters will find over 20 new perks, nearly as many techniques, and six new styles of gunfighting . . . plus dozens of new guns, and other gear to give those guns an extra *realistic* edge.

Whether they’re looking to ramp up the realism of their modern-day adventures, build and equip characters who are sharpshooting specialists, or arm the heroes (and villains!) with tactics and tricks to shift the odds, *GURPS Tactical Shooting* is loaded for bear!

**Description:** 88-page B&W softcover supplement for *GURPS Fourth Edition*.
